Hi Amy,

I have attached the draft decision document to use when completing the following tasks:

- The Contractor will review the decision document for references not already located under <http://coast.noaa.gov/czm/pollutioncontrol/oregondocket/> and provide a table listing those additional references and electronic copies of the references if not already provided under task 9.
- The Contractor will review the decision document and develop a list of abbreviations/acronyms used.

Thanks!

Jayne
